

AMENDMENT TO TITLE OF THE INVENTION

The Examiner indicated that the title of the invention is not descriptive, and a new title is required. Therefore, Applicants accept Examiner's suggested Title and respectfully request the title of the invention be amended as follows

DUAL CONFIGURATION RECEIVER AND METHOD FOR SCANNING AND
RECEIVING WAKE-UP SIGNALS WITH MULTIPLE CONFIGURATIONS

SPECIFICATION AMENDMENTS

Please replace paragraph [0029] on page 5 with the following paragraph:

[0029] If in step 13, the signal or the information contained in it contains a wake-up criterion based on configuration B, then the receiver using configuration B goes into an active mode as per step 15, and possibly additionally outputs at output 19 a wake-up signal, for example as interrupt request IRQ, which advantageously also contains the information on the successful receiving configuration, namely B.
